- For 3 months it has increased more than **10 times**
- The capitalization of **\$350 000 000**
- Average daily trading turnover is **\$1 000 000**

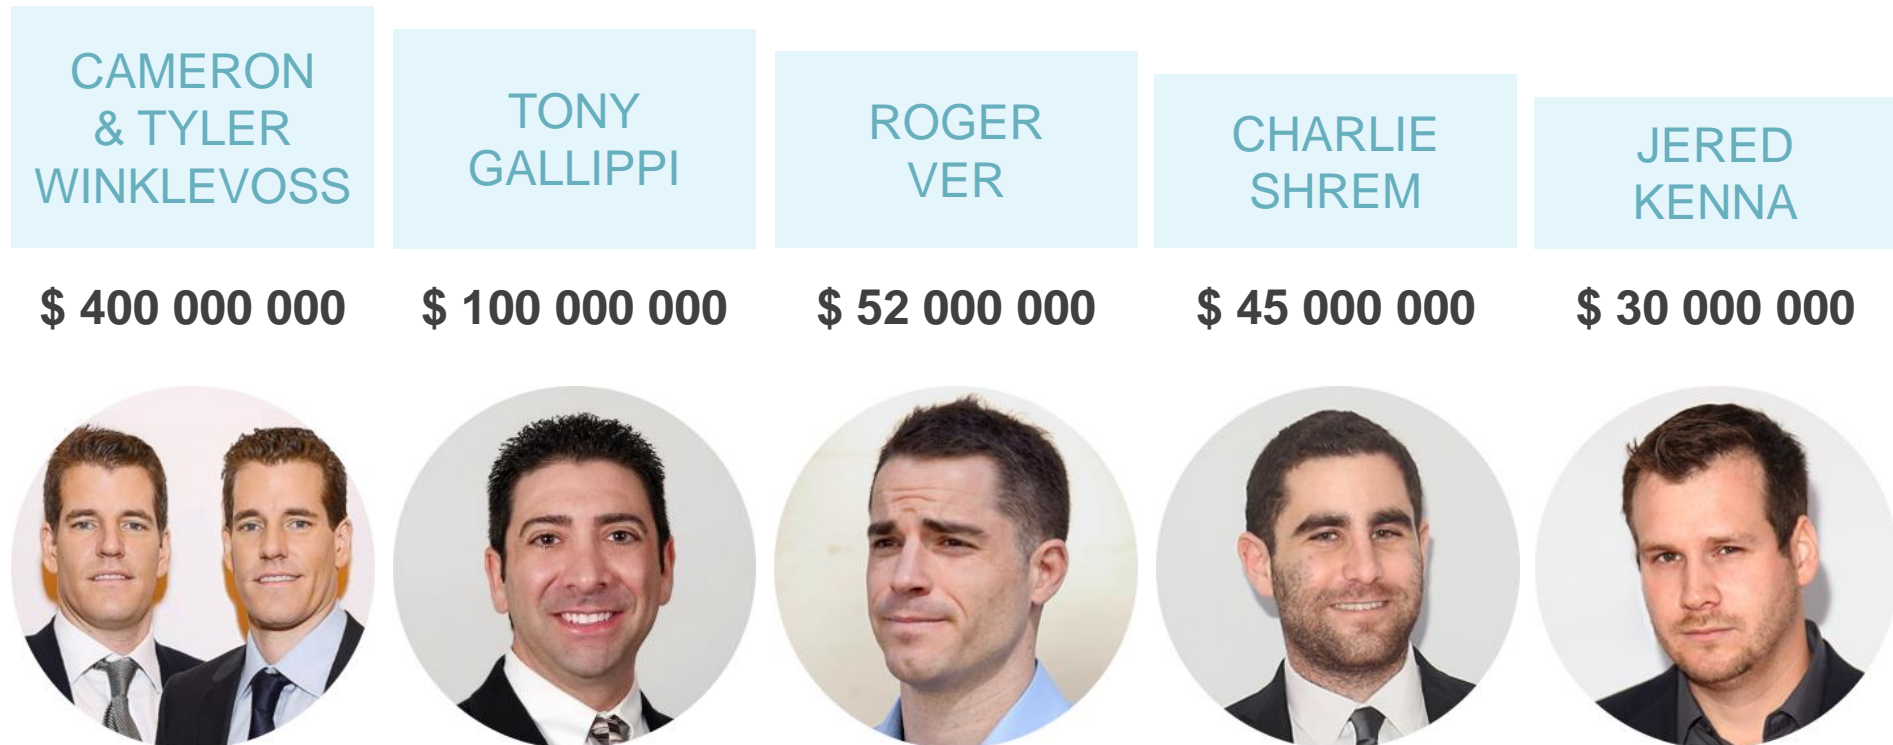

## Cryptocurrency exchanges

# The Bitcoin Millionaires

Created eight years ago by a person or group using the name Satoshi Nakamoto, Bitcoin is a virtual currency that can be used to buy and sell a broad range of items—from cupcakes to electronics to illegal narcotics. The surge in a Bitcoin's value has made millionaires out of people who loaded up on them early on—however briefly. Many of them are self-described libertarians, drawn by the idea of a currency that exists outside the control of governments. Some were so taken with the concept that they launched Bitcoin businesses, such as exchanges where people can buy the coins or exchange them for dollars.

# What Ethereum is?

---

Ethereum ([www.ethereum.org](http://www.ethereum.org)) — is a platform for creating of decentralized Internet applications (dapps) that works on the basis of smart contracts. "What Bitcoin does for payments, Ethereum does for anything that can be programmed", it's often also called cryptocurrency 2.0, was launched by 22-year-old prodigy Vitaly Buterin.

This platform is able to affect the principles of Internet structure.

- 37 countries
- 107,538 members

DOWNLOAD THE COMPANY ANNUAL REPORT

# The scheme of the company work

---

1

Free registration. To open an account, it's sufficient to enter your e-mail

2

Transfer of investment funds in trust to our traders

3

Trading with Ethereum on the cryptocurrency exchanges and weekly reporting of traders

4

Equal division of final profit between the company and its investors

ethtrade

# An example and opportunities

Profit is accrued in the same currency which you invest, without conversion to USD.

For example, 30th April 2016, you have created a portfolio of 10 BTC, when 1 BTC costed \$ 500

The average profit margin on the deposit is 20 % per month.

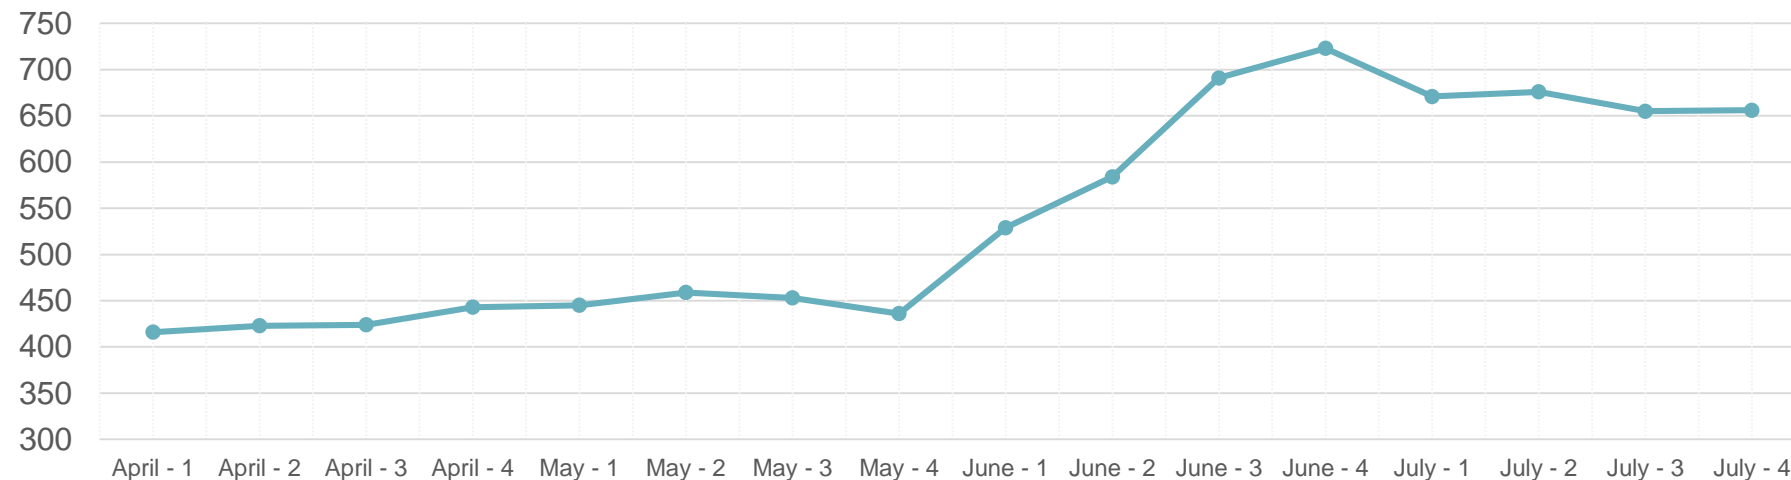

The price reached \$ 662 for 1 BTC on 20th July 2016.

Your profit on ethtrade platform for 3 months is  $3 \times 20 = 60 = 10 \% \times 60 = 6 \text{ BTC}$

Additional profit due the growth of Bitcoin price is  $662 - 500 = 162 \times 10 = \$ 1620$

The total profit from investment and Bitcoin growth is 6 BTC + \$ 1620

There will be only cryptocurrency growth and its development in 2017-2018 and only question about how much.

# Statuses

		Bonus from a deposit:	Bonus from the profit:	Weekly limit:	
	<b>FRONTIER</b> This status is given to you as soon as you register an account.	first line <b>3 %</b> second line <b>2 %</b> third line <b>1 %</b>	first line <b>3 %</b> second line <b>1 %</b> third line <b>1 %</b>	investment <b>\$ 500</b> withdrawal <b>\$ 300</b>
